

## Enjoyment Drawing Sessions

with ZIP group, Berlin 2025

XL Berlin Projects Space (January), ExBrache, ExRotaprint Garden (May, June)

The works are the result of three open collective drawing and painting sessions organized in collaboration with ZIP group in Berlin in 2025, at the XL Berlin Projects Space and outdoor, in the ExBrache Garden.

These sessions lasted whole afternoons, with colleagues artists and other interested people taking part. The idea was to engage collectively with difficult topics related to art, politics, and our personal relationships with the current situation in a time when wars affect our lives and societies. The sessions served as a form of self-empowerment, a setting to experiment with ideas that could be further transformed in other contexts. Most of the made images are sketches that emerged from the enjoyment of having a good time together, which challenges the marginalization of creativity in times of urgency and uncertainty.
